## Environmental Improvement Budget Item Catalogue 2010 - 11

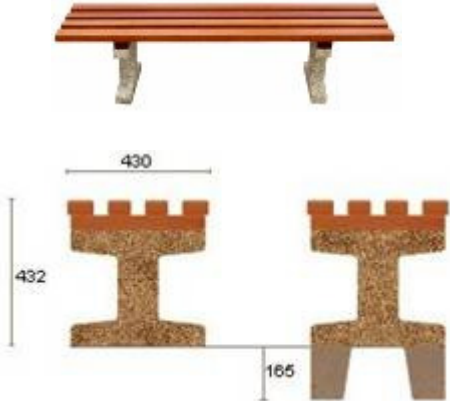

## About the "Environmental Improvement Budget (EIB) Item Catalogue"

The "EIB Item Catalogue" has been prepared to assist Tenant & Resident Associations (TRAs) in selecting works to progress from their funding allocation. Within this Catalogue can be found an extensive listing of items that can be purchased and installed through the EIB. All items are provided with costs and descriptions.

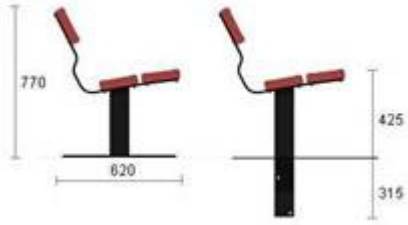

Included in all prices provided are the labour costs to supply and fit the product.

**All costs are for guidance only, may vary according to local circumstances and are subject to change.**

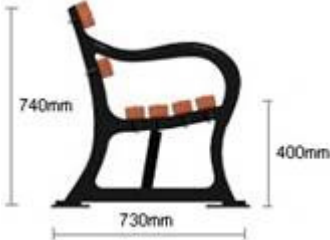

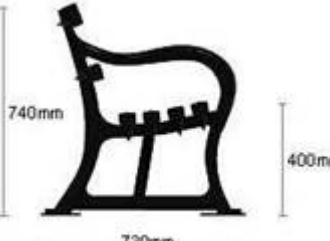

TABLE OF CONTENTS		
<b>1</b>	Benches & Seats	p. 3 - 8
<b>2</b>	Litterbins & Dog-bins	p. 9 - 13
<b>3</b>	Planters	p. 14 - 16
<b>4</b>	Picnic Tables	p. 17 - 18
<b>5</b>	Bicycle Racks & Lockers	p. 19 - 22
<b>6</b>	Notice Boards	p. 23
<b>7</b>	Signage	p. 24 - 25
<b>8</b>	Miscellaneous	p. 26 - 29

Image	Model Details	Further Information
<b>1) BENCHES &amp; SEATS</b>		
<p><b>1.1</b></p> 	<p>Type ~ Neptune bench</p> <p>Size ~ 1520mm</p> <p><u>Cost:</u></p> <ul style="list-style-type: none"> <li>To supply &amp; fit to concrete surface = <b>£426.30</b></li> <li>To supply &amp; fit to grass surface (concrete in ground) = <b>£566.30</b></li> </ul>	<p>The tough and strong Neptune bench requires minimal maintenance and is ideal for school playgrounds. The 45mm thick hardwood bench slats conform to BS5756 strength class 8, one of the strongest classifications. If left to weather naturally the wood will gradually turn silver grey with no loss of strength. Alternatively to retain the depth of colour a wood stain can be applied every few years. Fixings are recessed below a hardwood plug to deter vandal access.</p> <p>The concrete bench supports have an attractive exposed aggregate finish. One model has bolt holes for fixing above ground onto a hard flat surface. Another has supports that extend below ground and are concreted in for extra security.</p>
<p><b>1.2</b></p> 	<p>Type ~ Beaufort bench</p> <p>Size ~ 1800mm</p> <p><u>Cost:</u></p> <ul style="list-style-type: none"> <li>To supply &amp; fit to concrete surface = <b>£464.00</b></li> <li>To supply &amp; fit to grass surface (concrete in ground) = <b>£604.00</b></li> </ul>	<p>The Beaufort bench forms part of a high specification range that is ideally suited for use in parks and school playgrounds. The thick hardwood slats are chosen for their hard-wearing, long lasting characteristics. Initially supplied finished with 2 coats of microporous woodstain to enhance their natural appearance, they can be left to weather naturally with no loss of strength.</p> <p>The steel supports are galvanised to prevent rust and powder coated in a choice of colours.</p> <p>The bench is available in two versions for above or below ground mounting. The above ground model is bolted down to a flat hard surface. The below ground model has extended pillars that are concreted into the ground; ideal for grass surfaces or where the ground is uneven.</p>

1.3	 <p>The image shows a perspective view of a Kara bench with wooden slats and metal legs. Below it are two technical diagrams: SF75A shows a side view of the leg with a width of 450mm and a height of 450mm; SF75B shows a side view of the leg with a width of 290mm.</p>	<p>Type ~ Kara bench</p> <p>Size ~ 1830mm</p> <p><u>Cost:</u></p> <ul style="list-style-type: none"> <li>To supply &amp; fit to concrete surface = <b>£496.50</b></li> <li>To supply &amp; fit to grass surface (concrete in ground) = <b>£636.50</b></li> </ul>	<p>If vandalism is a problem the socket head security bolts supplied with the Kara bench will act as a deterrent, preventing removal of the hardwood slats. The two different styles of supports enable the bench to be securely fixed into any surface.</p> <p>The 45mm thick hardwood slats on this bench are selected from the strongest grades for first class strength and durability. 2 coats of micro porous woodstain are applied to enhance the natural appearance. If left to weather naturally the timber will eventually turn silver grey with no loss of strength. If preferred an application of woodstain every few years will retain the rich colour.</p> <p>The Kara bench is available in above or below ground styles to give secure anchorage in any ground condition.</p>
1.4	 <p>The image shows a Cerro bench with a long wooden seat and two metal end supports with curved backs.</p>	<p>Type ~ Cerro bench</p> <p>Size ~ 1800mm</p> <p><u>Cost:</u></p> <ul style="list-style-type: none"> <li>To supply &amp; fit to concrete surface = <b>£1,279.20</b></li> <li>To supply &amp; fit to grass surface (concrete in ground) = <b>£1,419.20</b></li> </ul>	<p>Modern cast aluminium blends smoothly with traditional hardwood.</p>
1.5	 <p>The image shows a Beaufort seat with a wooden seat and backrest, supported by a metal frame.</p>	<p>Type ~ Beaufort seat</p> <p>Size ~ 2000mm</p>	<p>The Beaufort Seat forms part of a high specification range of seats and benches tough enough for today's urban environment. The 45 x 195mm hardwood slats are chosen for their hard-wearing, long lasting characteristics. Supplied finished with 2 coats of microporous</p>

		<p><u>Cost:</u></p> <ul style="list-style-type: none"> <li>To supply &amp; fit to concrete surface = <b>£678.50</b></li> <li>To supply &amp; fit to grass surface (concrete in ground) = <b>£818.50</b></li> </ul>	<p>woodstain to enhance their natural appearance, they can be left to weather naturally with no loss of strength.</p> <p>The steel seat supports are galvanised to prevent rust and powder coated in a choice of colours. Available in two versions for above or below ground mounting. The above ground seat pictured here is bolted down to a flat hard surface. The below ground seat has extended pillars that are concreted into the ground; ideal where the ground is soft or uneven.</p>
<p><b>1.6</b></p>		<p>Type ~ Beaufort armrest seat</p> <p>Size ~ 2000mm</p> <p><u>Cost:</u></p> <ul style="list-style-type: none"> <li>To supply &amp; fit to concrete surface = <b>£740.00</b></li> <li>To supply &amp; fit to grass surface (concrete in ground) = <b>£850.00</b></li> </ul>	<p>A high specification range of seats and benches tough enough for today's urban environment. The 45 x 195mm hardwood slats are chosen for their hard-wearing, long lasting characteristics. Supplied finished with 2 coats of microporous woodstain to enhance their natural appearance, the seats can be left to weather naturally with no loss of strength.</p> <p>The steel seat supports are galvanised to prevent rust and powder coated in a choice of colours. Available in two versions for above or below ground mounting. The above ground seat pictured here is bolted down to a flat hard surface. The below ground seat has extended pillars that are concreted into the ground; ideal where the ground is soft or uneven.</p>
<p><b>1.7</b></p>		<p>Type ~ Kara seat</p> <p>Size ~ 1830mm</p> <p><u>Cost:</u></p> <ul style="list-style-type: none"> <li>To supply &amp; fit to concrete surface = <b>£750.00</b></li> <li>To supply &amp; fit to grass surface (concrete in</li> </ul>	<p>If vandalism is a problem the socket head security bolts supplied with the Kara seat will act as a deterrent, preventing removal of the hardwood slats. The two different styles of supports enable the seat to be securely fixed into any surface.</p> <p>45mm thick hardwood seat slats are selected from the strongest grades for first class strength and durability. 2 coats of microporous woodstain are applied to enhance the natural appearance. If left to weather naturally the timber will eventually turn silver grey with no</p>

		<p>ground) = <b>£865.00</b></p>	<p>loss of strength. If preferred an application of woodstain every few years will retain the rich colour.</p> <p>Above or below ground styles are available to give secure anchorage in any ground condition.</p>
<p><b>1.8</b></p>		<p>Type ~ Metropolitan Steel Seat</p> <p>Size ~ 1820 mm overall length seat</p> <p><u>Cost:</u></p> <ul style="list-style-type: none"> <li>To supply &amp; fit to concrete surface = <b>£853.00</b></li> </ul>	<p>Perforated Steel Seats Tubular Steel Sub-Frame, all Plastic Coated Finish</p> <p>Options: Extended Root Fixed, Stainless steel</p> <p>Supply, excavate, dispose of waste materials and erect either surface mounted or root fixed 4 seat Metal Bench, any size or shape, in any hard/soft surface incl drilling, fixings, plugging, unit assembly and permanent reinstatement of surfacing.</p>

<b>1.9</b>	  	<p>Type ~ Avenue wood and metal seat</p> <p>Size ~ 1830mm</p> <p><u>Cost:</u></p> <ul style="list-style-type: none"> <li>To supply &amp; fit to concrete surface = <b>£883.10</b></li> <li>To supply &amp; fit to grass surface (concrete in ground) = <b>£1,023.10</b></li> </ul>	<p>The classic cast iron Avenue Seat makes a perfect choice for parks and promenades. The cast iron supports are coated with a rust inhibiting paint in a choice of colours.</p> <p>The 45mm thick hardwood slats are selected from the strongest grades for first class strength and durability. Two coats of microporous woodstain enhance their natural appearance. When left to weather naturally the timber will gradually turn silver grey in colour without loss of strength. If preferred an application of woodstain every few years will retain the rich colour.</p> <p>Fixing points allow for the seat to be securely anchored.</p>
<b>1.10</b>	  	<p>Type ~ Avenue all metal seat</p> <p>Size ~ 1800mm</p> <p><u>Cost:</u></p> <ul style="list-style-type: none"> <li>To supply &amp; fit to concrete surface = <b>£990.00</b></li> <li>To supply &amp; fit to grass surface (concrete in ground) = <b>£1,130.00</b></li> </ul>	<p>The classic cast iron Avenue Seat makes a perfect choice for parks and promenades. The cast iron supports are coated with a rust inhibiting paint in a choice of colours.</p> <p>The metal seat slats are constructed from 40mm x 60mm mild steel box section that is zinc plated and then electrostatically coated with a tough multicoat finish.</p> <p>Fixing points allow for the seat to be securely anchored.</p> <p>Colours: black, dark green, dark blue, grey, burgundy, red, yellow</p>

1.11

Type ~ Cerro seat

Size ~ 1800mm

Cost:

- To supply & fit to concrete surface = **£1,553.80**
- To supply & fit to grass surface (concrete in ground) = **£1,693.80**

Modern cast aluminium blends smoothly with traditional hardwood.

## 2) LITTERBINS & DOG-BINS

2.1

Type ~ Baltic all steel bin

Size ~ 65 litres

Cost:

- To supply & fit to concrete surface = **£285.50**
- To supply & fit to grass surface (concrete in ground) = **£390.00**

The Baltic litter bin is very popular with Local authorities due to its all steel welded construction that makes it ideal for use in high vandalism areas. The bin frame is fully galvanised to prevent rust and is finished in a range of powder coat colours. The removable galvanised bin liner takes a standard plastic sack and has a lifting handle, drainage holes, and a locking point.

The litter bin is available in two versions for above or below ground mounting.

Standard colours: Black, dark blue, dark green, grey, burgundy, red, yellow, light green.

2.2

Type ~ Neptune timber clad litterbin

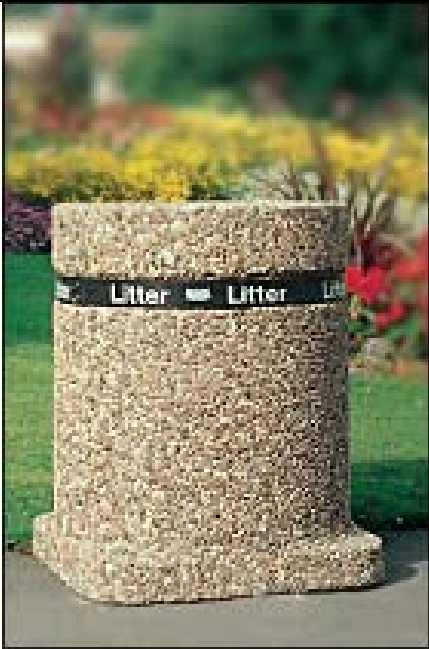

Size ~ 65 litres

Cost:

- To supply & fit to concrete surface = **£325.20**
- To supply & fit to grass surface (concrete in ground) = **£390.00**

A choice of mountings are available to suit differing ground conditions. For positioning above ground on a hard flat surface galvanised feet are supplied. If the ground is soft or uneven or if you want extra security in high vandal areas choose a model that comes with an extended pedestal to concrete below ground.

**2.3**

Type ~ Salop Anti-Roll Concrete Litter Bin

Size ~ 75 litres

Options:  
Security chain

Supply, excavate, dispose of waste materials and erect surface mounted Concrete Litter Bin, any size or shape, in any hard/soft surface incl drilling, fixings, plugging, unit assembly and permanent reinstatement of surfacing.

Cost per item = **£307.50**

Concrete litter bins are solid and durable, combining the benefits of low maintenance and replacement costs.

The bins are often selected for areas where vandalism is common since the exposed aggregate finish is difficult to deface and the material weathers naturally. Bins, such as the Salop, pictured here, are available with a polyethylene canopy. Logos and crests can be added where appropriate.

Drainage holes are provided through the base of each unit and these may be used for permanent ground fixing if required. Additional holes can be added upon request.

All pre-cast concrete litter bins are supplied complete with a plasticised wire basket of robust construction and feature a sheet metal base to prevent the loss of litter through the wire mesh. It is possible to secure the basket to the bin by means of a security chain if required.

**2.4**

Type ~ Victoriana litterbin (with lids)

Size ~ 90 litres

Cost:

- To supply & fit to concrete surface = **£368.75**
- To supply & fit to grass surface (concrete in ground) = **£458.75**

All the style of a cast iron bin but without the added cost. Made from Polythene; includes galvanised liner.

2.5

Type ~ Victoria Post Mounted Cast Iron Litter Bin

Size ~ 55 litres

Options:  
Litter and rings highlighted, security chain, available without litter plaque

Supply, excavate, dispose of waste materials and erect root fixed Metal Litter Bin, any size or shape, in any hard/soft surface incl drilling, fixings, plugging, unit assembly and permanent reinstatement of surfacing

Cost per item = **£437.50**

One of the greatest practical problems facing local authorities and private enterprise, as well as the general public, is street litter.

The provision of strong, intelligently positioned, eye-pleasing litter containers is essential.

Attractive litter bins add aesthetic value to an area and therefore encourage use.

2.6

Type ~ Barent all steel large litterbin

Size ~ 120 litres

Cost:

- To supply & fit to concrete surface = **£705.00**
- To supply & fit to grass surface (concrete in ground) = **£754.40**

The Barent litter bin is a heavy duty metal bin with large litter openings on two sides. It has an all steel welded construction that makes it ideal for use in high vandalism areas. The bin frame is fully galvanised to prevent rust and powder coated in a range of colours (black, dark blue, dark green, grey, burgundy, red, yellow, light green).

The front opening door gives access to the large 120 litre capacity galvanised bin liner. The door is fitted with triangular key lock suited to exterior use. Fixing points are provided in the base so that the bins can be securely anchored by bolting down to a hard surface.

2.7

Type ~ Sirius Post Mounted Dog Waste Bin

Features:

1.5mm Zinc coated body  
Powder Galv Prime and Polyester  
Powder Coat (BLACK as standard)

Capacity: 40 or 60 litres  
4 fixing holes in rear

Optional Extras:

Dedicated steel post for concrete  
fixing (1500mm high allowing  
300mm to be submerged into  
concrete below ground to secure  
post) - BX45 X-SPCF  
Stainless steel banding tape  
bracket (this secures litter bin to  
an existing post) - BX45 X-SBF

Please note stainless steel banding  
tape not supplied.

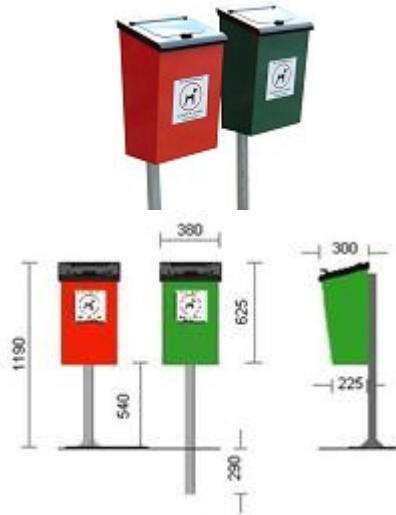

Dimensions:

40 litre  
Height: 580mm  
Width: 310mm  
Depth: 310mm

60 litre  
Height: 880mm  
Width: 310mm  
Depth: 310mm

Supply, excavate, dispose of waste materials  
and erect root fixed Metal Dog Bin, any size or  
shape, in any hard/soft surface incl drilling,  
fixings, plugging, unit assembly and permanent  
reinstatement of surfacing.

**2.8**

Cost per item = **£227.73**

Type ~ Lieutenant Dog Waste Bins

Size ~ 50 litres

Cost:

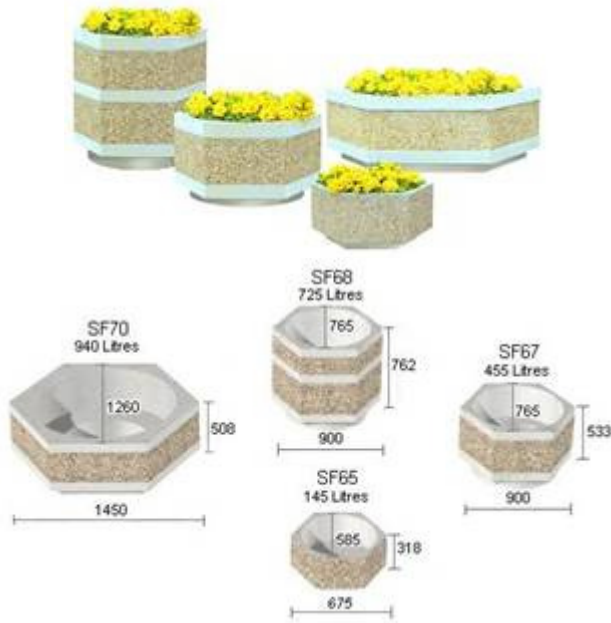

- To supply & fit to concrete surface = **£354.00**
- To supply & fit to grass surface (concrete in ground) = **£390.00**

The Lieutenant dog waste bin is manufactured from galvanised steel with no plastic parts that can burn or melt. It is powder coated in a choice of red or green; other colours are available on request. To make it hygienic in use the bin has a twin lid system consisting of an inner lid for disposal of dog waste and an outer lid for easy emptying . The bin takes a standard plastic sack.

The Lieutenant dog bin is available with 3 different mountings.  
 (1) a floor mounting post that can be bolted down to a hard surface.  
 (2) an extended post to concrete below ground; ideal when the ground is soft or uneven.  
 (3) has a wall mounting bracket.

### 3) PLANTERS

3.1

Type ~ Concrete hexagonal planters

Option 1

Size:  
585mm dia x 318mm  
Cost:

**£198.00 each**

Option 2

Size:  
765mm dia x 533mm  
Cost:

**£440.00 each**

Option 3

Size:  
765mm dia x 762mm  
Cost:

**£566.40 each**

Option 4

Size:  
1260mm dia x 508mm  
Cost:

**£657.60 each**

Transform a featureless area with these attractive hexagonal concrete planters. Whether grouped or placed singly, they are sure to bring a splash of colour with the changing seasons. Concrete planters are ideal for areas where permanent ground planting is unsuitable.

Weighing up to 1 tonne when fully planted they make an interesting alternative to bollards for traffic control and parking restrictions.

Manufactured from reinforced precast concrete and finished in exposed aggregate to compliment the Southampton Seat and Neptune Bench.

**3.2**

Type ~ Beaufort hardwood planters

Option 1

Size:  
1000 x 500 x 500mm  
Cost:  
**£590.40 each**

Option 2

Size:  
1000 x 1000 x 700mm  
Cost:  
**£783.00 each**

The attractive Beaufort wooden planter compliments the range of Beaufort seats and benches and is ideal for use where permanent ground planting is unsuitable. The strong and rigid construction of the planter means that it is ideal for use in public areas such as town centres. Galvanised steel sections inside the planter add even more strength.

The 45mm thick hardwood slats used in the construction are selected for their long lasting, non-warping characteristics. Initially supplied finished with 2 coats of microporous woodstain to enhance their natural appearance, they can be left to weather naturally with no loss of strength.

The planter is fully lined with a self-draining woven textile that will retain the soil whilst allowing excess water to drain away.

**3.3**

Type ~ Kara wooden planters

Option 1

Size:  
1000 x 500 x 500mm  
Cost:  
**£634.80 each**

Option 2

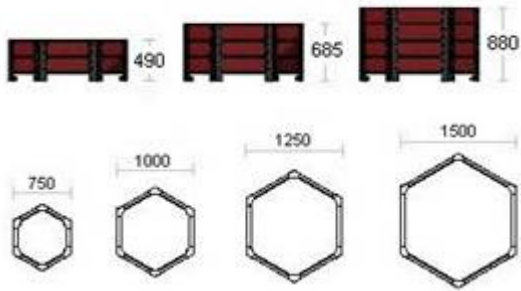

Size:  
1000 x 1000 x 700mm  
Cost:  
**£840.50 each**

The classic Kara wooden planter is ideal for use where permanent ground planting is unsuitable or to make plants more accessible to the disabled. The strong and rigid construction of the planter means that it is ideal for use in public areas such as town centres. Galvanised steel sections inside the planter add even more strength.

The hardwood slats used in the construction are selected for their long lasting, non-warping characteristics. Initially supplied finished with 2 coats of microporous woodstain to enhance their natural appearance, they can be left to weather naturally with no loss of strength.

The planter is fully lined with a self-draining woven textile that will retain the soil whilst allowing excess water to drain away.

**3.4**

Type ~ Heathland hexagonal hardwood planters

Option 1  
Size:  
750mm dia x 490mm  
Cost:  
**£792.00 each**

Option 2  
Size:  
1000mm dia x 685mm  
Cost:  
**£950.40 each**

Option 3  
Size:  
1250mm dia x 880mm  
Cost:  
**£1,254.00 each**

Option 4  
Size:  
1500mm dia x 880mm (??)  
Cost:  
**£1,400.00 each**

Hexagonal in shape and constructed using 45mm thick hardwood timbers finished with 2 coats of micro-porous preservative. If left to weather naturally the wood will gradually turn silver grey with no loss of strength. Alternatively to retain the depth of colour a wood stain can be applied every few years.

The heavy duty steel supports are fully galvanised against rust and finished with a black powder coating. Each support has an adjustable foot that will account for any unevenness in the ground.

The planters are lined with a self-draining tough geotextile fabric that will retain the soil whilst allowing excess water to drain away.

**4) PICNIC TABLES**

<p><b>4.1</b></p>		<p>Type ~ Woodland picnic table</p> <p>Size ~ 1830mm</p> <p><u>Cost:</u></p> <ul style="list-style-type: none"> <li>To supply &amp; fit to concrete surface = <b>£509.20</b></li> <li>To supply &amp; fit to grass surface (concrete in ground) = <b>£724.40</b></li> </ul>	<p>This traditional design hardwood picnic table is solidly built to resist the toughest environment. The 45mm thick hardwood slats used in the construction are selected for their long lasting, non-warping characteristics. Initially supplied finished with 2 coats of microporous woodstain to enhance the natural appearance, the table can be left to weather naturally with no loss of strength. If preferred the wood can be treated every few years to retain the rich colour.</p> <p>The picnic table can be left free standing in secure areas or bolted down to a hard surface. If permanent installation is required the below ground version with extended supports can be concreted directly into the ground. The picnic table top is drilled to take an umbrella.</p>
<p><b>4.2</b></p>		<p>Type ~ Beaufort picnic table</p> <p>Size ~ 1830mm</p> <p><u>Cost:</u></p> <ul style="list-style-type: none"> <li>To supply &amp; fit to concrete surface = <b>£724.40</b></li> <li>To supply &amp; fit to grass surface (concrete in ground) = <b>£930.80</b></li> </ul>	<p>The walk-in design of the sturdy Beaufort picnic table makes it easily accessible for all ages and abilities, with special thought given to the accommodation of wheelchairs at each end.</p> <p>The 45mm thick hardwood slats are chosen for their hard-wearing, long lasting characteristics. The picnic tables are supplied finished with 2 coats of microporous woodstain to enhance the natural appearance of the wood. They can be left to weather naturally with no loss of strength.</p>

4.3

Type ~ Northfield Picnic Unit

Also available BX/MW/210/B-2, galvanized and spray painted all-steel vandal resistant picnic unit, 75mm x 25mm box slats x 2.5mm wall thickness, width 1385mm.

Dimensions  
Weight: 155kg  
Length: 1830mm

Supply, excavate, dispose of waste materials and erect either surface mounted or root fixed combination Seat/Picnic table, any size or shape, in any hard/soft surface incl drilling, fixings, plugging, unit assembly and permanent reinstatement of surfacing.

Cost per item = **£735.00**

4.4

Type ~ Adriatic picnic table

Size ~ 1830mm

Cost:

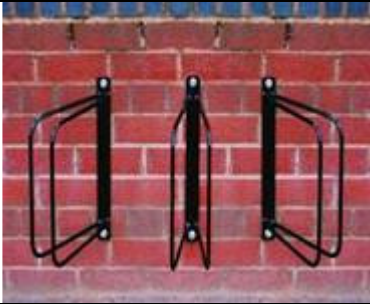

- To supply & fit to grass surface (concrete in ground) = **£920.00**

Weighing 250 kilos the Adriatic Picnic Table is ideal for parks, sportsfields and school playgrounds. The smooth finish concrete supports are set below ground for rigidity and security. The picnic table has been designed with extended bench seats for people with limited mobility and to provide wheelchair access at each end. The table top is drilled to take an umbrella.

The 45mm thick hardwood bench slats conform to BS5756 strength class 8, one of the strongest classifications. If left to weather naturally the wood will gradually turn silver grey with no loss of strength. Alternatively to retain the depth of colour a wood stain can be applied every few years.

**5) BICYCLE RACKS & LOCKERS**

<p><b>5.1</b></p>		<p>Wall-mounted bike rack - Supply and install to wall = <b>£49.58</b> each</p>	
<p><b>5.2</b></p>		<p>Wall-mounted bike rack - Supply and install to wall = <b>£63.46</b> each.</p>	<p>Note: these can swivel, but I'm not quite sure of how secure they would be.</p>
<p><b>5.3</b></p>		<p>Wall-mounted bike rack - Supply and install to wall = <b>£76.62</b> each</p>	

			
<p>5.4</p>		<p>Wall-mounted bike rack - Supply and install to wall = <b>£124.00</b> each</p>	<p>With regard to wall mounted bike racks, prices vary on robustness of product. This is the most robust available.</p>
<p>5.5</p>		<p>To supply &amp; fit 1 x 10 bike rack = <b>£304.99</b> each  To supply &amp; fit 5 x 10 bike rack = <b>£285.99</b> each, x 5 = <b>£1429.95</b></p>	<p>The ground will need to be a concrete or hard standing base of some sort, so that the bike rack is sufficiently secure.</p>

5.6

Sheffield Cycle Stand (BXMW/GS0)

Available in 50mmø steel, hot dipped galvanized to BS EN ISO 1461:1999, and polyester powder coated. Also available in stainless steel and duracast polyurethane. Duracast is an engineering grade polyurethane which is rust and corrosion resistant and virtually maintenance free. As it is a polymer it provides maximum protection against damaging the bikes frame. All versions available base plate or submerged fixed

Supply, excavate, dispose of waste materials and erect root fixed Cycle stand (D or hoop) shape, any size in any hard/soft surface incl drilling, fixings, plugging, root fixing incl for permanent reinstatement of surfacing.

Cost per item = **£165.99**

5.7

To supply & fit a 5 hoop bike rack (this is to assemble, drill and bolt to existing floor surface).  
= **£880.42** each

To supply & fit an 8 hoop bike rack (this is to assemble, drill and bolt to existing floor surface).  
= **£1,279.27** each

If 5 or more are purchased, we get a 5% discount.

If concrete pads stones are required the cost would increase.

<p><b>5.8</b></p>		<p>To supply and fit 10 bike shelter as per picture; this includes frame, rack, sides and roof = £2,078.89 each</p>	
<p><b>5.9</b></p>	<p>[No image available at time of printing.]</p>	<p>Bicycle lockers:           To supply &amp; fit 1          = <b>£1014.00</b>           To supply &amp; fit 2          = <b>£1728.00</b></p>	

## 6) NOTICE BOARDS

<b>7.1</b>	To supply & fit our standard size (710mm x 1095mm), external, lockable, <b>wall mounted</b> notice board in black = <b>£262.03</b>
<b>7.2</b>	To supply & fit our standard size (710mm x 1095mm), external, lockable, <b>post mounted</b> notice board in black = <b>£667.48</b>
<b>7.3</b>	To supply & fit Pin board (600mm x 900mm) with blue felt = <b>£60.00</b> each
<b>7.4</b>	To supply & fit Internal, lockable poster case (A1 size) in mill finish = <b>£155.50</b> each
<b>7.5</b>	To supply and fit Internal Felt notice board (Mahogany wood frame and beige felt 1800 x 1200 = <b>£201.60</b>
<b>7.6</b>	To supply & fit Internal, lockable, tamper proof notice board = <b>£290.00</b>  This comes in silver anodized, sizes: 760mm x 790mm (holds 6 x A4 sheets). This can be supplied in colours at an additional cost

## 7) SIGNAGE

8.1	To supply & fit our standard size, wall- or fence-mounted sign = <b>£52.20</b> per sign
8.2	To supply & fit a wall- or fence-mounted combined sign (e.g. combining "No Ball Games" and "Do Not Feed the Pigeons" sign) = <b>£66.16</b> per combined sign
8.3	To supply & fit our large size, wall- or fence-mounted = <b>£74.97</b> per sign
8.4	To supply & fit a large sign (wall-mounted) indicating block name = <b>£100.84</b> per sign
8.5	To supply & fit our standard size, post-mounted sign = <b>£212.94</b> per sign
8.6	To supply & fit a single sided Welcome Sign in Green (Ral 6005) with white/silver reflective graphics = <b>£1132.56</b> per sign
